FACTORY

BARI pipes are made in one of the few remaining factories in the world, where the craftsmen take time to make pipes by hand. This takes care and dedication.

Whether classic, modern, or distinctively Danish design, BARI pipes are all sculptured from the finest, carefully selected Briar in the world. They are lightweight, true in balance, and they rest easy in the mouth.

**SUPERB FREEHANDS,
MADE BY ÅGE BOGELLUND, WHO IS THE CHIEF PIPEMAKER
IN THE BARI PIPEFACTORY**

ÅGE BOGELLUND only makes a few pipes
every year, and therefore these pipes
are only available in very limited numbers.
